Elizabeth Bunoamici Recommendations:

I spoke with Elizabeth, the career counselor assigned to my department of labor career center account. She explained to me briefly about what services they do at the career center. She asked me more about the ticket to work information she sent me yesterday, and started to explain that what the department of labor and ACCES VR does is basically the same thing, but ACCES VR spends more intense time, than the department of labor. Her main recommendations were to keep working with ACCES VR and find a service that would spend more time and attention, like another ticket to work provider. As well as explore some of the online workshops they offer using my NY ID. I'm more than welcome to reconnect, when I don't need as much specialized attention in my job search. (10/1/2024)
